**CSE DEPARTMENT VISION-MISSION**

**Vision of the Department**

To establish an environment to provide quality education and Inculcate research attributes among computer science engineering graduates through problem solving skills and technological innovations.

**Mission of the Department**

**M1**

To create and sustain an academic environment to the highest level in teaching and research by enhancing the knowledge of the faculties and students in technological advancements to solve real time problems.

**M2**

Providing a suitable environment for the students to develop professionalism with knowledge in Computer Science & Engineering to meet the contemporary industry needs and satisfy global standards.

**M3**

To facilitate the development of professional behaviour and stronger ethical values so as to work with commitment for the progress of the nation and face challenges with ethical and social responsibility.

**Course Outcomes (CO)**

|      |                                                                                                                       |      |
|------|-----------------------------------------------------------------------------------------------------------------------|------|
| CO7  | Able to show resource provisioning in the cloud services using VMware workstation and CSP                             | PO5  |
| CO8  | Ability to use the Hadoop Distributed File Systems using Hadoop.                                                      | PO5  |
| CO9  | Ability to identify suitable Cloud deployment services and BigData analytics to find solutions to real time problems. | PO10 |
| CO10 | Ability to identify the solution for real time applications using Cloud and Big Data Analytics                        | PO10 |

## INSTRUCTIONS FOR THE EXPERIMENTS

1. Students are advised to come to the laboratory on time; those who come after 5 minutes will not be allowed into the lab.

2. Plan your task properly much before to the commencement, come prepared to the lab with the

synopsis / program / experiment details. Student should enter into the laboratory with:

- Laboratory observation notes with all the details (Problem statement, Aim, Implementation, Steps, Program, Expected Output, etc.,) filled in for the lab session.
- Laboratory Record updated up to the last session experiments and other utensils (if any) needed in the lab.
- Proper Dress code and Identity card.
- Sign in the laboratory login register, write the TIME-IN, and occupy the computer system allotted to you by the faculty.
- Execute your task in the laboratory, and record the results / output in the lab observation note book, and get certified by the concerned faculty.
- All the students should be polite and cooperative with the laboratory staff, must maintain the discipline and decency in the laboratory.
- Computer labs are established with sophisticated and high-end branded systems, which should be utilized properly.
- Students / Faculty must keep their mobile phones in SWITCHED OFF mode during the lab sessions. Misuse of the equipment, misbehaviors with the staff and systems etc., will attract severe punishment.
- Students must take the permission of the faculty in case of any urgency to go out; if anybody found loitering outside the lab / class without permission during working hours will be treated seriously and punished appropriately.
- Students should LOG OFF/ SHUT DOWN the computer system before he/she leaves the lab after completing the task (experiment) in all aspects. He/she must ensure the system / seat is kept properly.

**SAVEETHA SCHOOL OF ENGINEERING**  
**SAVEETHA INSTITUTE OF MEDICAL AND TECHNICAL SCIENCES**  
**DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING**

**DO'S AND DON'TS**

- ✓ Be on time to lab and maintain silence.
- ✓ Inform the instructor /TA in case of any working environment problem.
- ✓ Be aware of all the safety devices. Even through the instructor and TA will take care of emergencies.
- ✓ Bring all the necessary things required to do laboratory experiments like observation notebook, record notebook and any others.
- ✓ Enter the system number, in-time, out-time register number, name and signature in the students log register.
- ✓ Arrange the seating chairs and system accessories in place at the end of the session.
- ✓ Shut down the system properly and switch off the power switch at the end of the session.
- ✓ Keep your bags in front of the labs empty space.
- ✓ Do not eat, drink, chew gum, smoke or apply cosmetics in the lab.
- ✓ Do not unplug/plug any wires of the system connectivity.
- ✓ Do not use or charge the mobile phone or any electronic gadgets inside the lab.
- ✓ Not to troubleshoot by yourself without knowledge of instructor/TA.
- ✓ Do not open any unnecessary applications in system.
- ✓ Mobiles phones are prohibited inside the lab.
- ✓ Do not share a system to do experiments.

**Students strictly follow all the above instructions**

2. Enter a license key

New Virtual Machine Wizard x 6 PRO™

**Guest Operating System Installation**  
A virtual machine is like a physical computer; it needs an operating system. How will you install the guest operating system?

Install from:

☐ Installer disc:  
No drives available

☐ Installer disc image file (iso):  
C:\Users\Gopi Prasad-PC\Downloads\ubuntu-20.04.2... Browse...

☒ I will install the operating system later.  
The virtual machine will be created with a blank hard disk.

New Virtual Machine Wizard x 6 PRO™

**Select a Guest Operating System**  
Which operating system will be installed on this virtual machine?

Guest operating system:

☐ Microsoft Windows  
☒ Linux  
☐ VMware ESX  
☐ Other

Version:  
Ubuntu 64-bit

New Virtual Machine Wizard x 6 PRO™

**Name the Virtual Machine**  
What name would you like to use for this virtual machine?

Virtual machine name:  
Ubuntu VMware

Location:  
C:\Users\Gopi Prasad-PC\Documents\Virtual Machines\Ubuntu \ Browse...

The default location can be changed at Edit > Preferences.

New Virtual Machine Wizard

Specify Disk Capacity

How large do you want this disk to be?

The virtual machine's hard disk is stored as one or more files on the host computer's physical disk. These file(s) start small and become larger as you add applications, files, and data to your virtual machine.

Maximum disk size (GB):

20.0

Recommended size for Ubuntu 64-bit: 20 GB

☒ Store virtual disk as a single file

☐ Split virtual disk into multiple files

Splitting the disk makes it easier to move the virtual machine to another computer but may reduce performance with very large disks.

New Virtual Machine Wizard

Ready to Create Virtual Machine

Click Finish to create the virtual machine. Then you can install Ubuntu 64-bit.

The virtual machine will be created with the following settings:

Name:

Ubuntu Vmware

Location:

C:\Users\Gopi Prasad-PC\Documents\Virtual Machines\U...

Version:

Workstation 16.x

Operating System:

Ubuntu 64-bit

Hard Disk:

20 GB

Memory:

2048 MB

Network Adapter:

NAT

Other Devices:

2 CPU cores, CD/DVD, USB Controller, Printer, Sound C...

Customize Hardware...
